Nicholas & Alexandra: Russia's Last Royals
Viasat History Channel 412

Ever since their brutal deaths almost 100 years ago, we've all been fascinated by Nicholas and Alexandra – one of the most famous couples in modern history. Yet their real story, both political and intimate, has never been televised. Through the couple's own love letters there is an opportunity to tell the definitive story of Nicholas and Alexandra, and their roles in the lead up to the 1917 Russian Revolution. A docu-drama based around these love letters will not only overturn the old romantic clichés but also explain the Revolution in a way that is more unique and exciting than the grim, industrial narrative everyone's familiar with. The thousands of love letters are politically, sexually, and personally intimate. They're also totally damning and all in English. These private and personal letters chronicle Alexandra's disastrous dictatorship in graphic detail, leading directly to the total discrediting of the Imperial government as the Revolution started.
